Administration Window

You must indicate the **start date** and **end date** for the assessment in the Administration Window section.

1. In the **Start Date** field, enter the desired start date for the survey.
2. In the **End Date** field, enter the end date for the survey. (The system automatically defaults to 30 days after the chosen start date in the **Start Date** field, but you can adjust it to whatever

date is needed for your program testing. Do keep in mind that the results and invoice will not be sent until after the closing date has passed.)

3. In the **Number of Registrations** field, enter the total number of participants you plan to take the IFG Survey online within the group you are registering for.

Once the online registration is completed, you will see a “Success!” message displayed at the top of the screen. (You can print this website page if you desire.) At the bottom of the page you can download the zip file for your session. The email address indicated on the registration form will also receive an email containing session information, zip file and setup instructions.
